Dear Jim & Vickie,

This is Diane's birthday picture which we took at her party at the Rinton Democratic Club. She is really a ham, whenever someone stands in front of her with a camera, she gets a big smile on her face.

Diane can sure get around now, and wants to walk by herself when we go places, not carried. She also doesn't want me to hold her hand, so it often takes a long time to do things! In most ways she's easier, though, as she will play with her toys for a while by herself and look through her books.

Your new condominium sounds so nice. It really is better not to have to worry about yardwork, washing windows etc., isn't it?

Diane is up from her nap now and is pulling her dog on a string around the room. We're looking forward to seeing you Thanksgiving. Love, Mary
